

DF-3061

PRODUCTION CHANGE SHEET  
FOR  
POWER AMPLIFIER MODEL 4EF5A1

Changes listed below are identified by the letter appearing  
in the REV pad on the unit chassis.

-----  
REV A - Purpose - To increase the ability of the output filter to  
withstand nearby lightning discharges.

Change - The dimensions of the capacitor plates and the  
teflon insulators in the output filter were changed to  
permit the use of higher voltage insulators between pass-  
through bolt and ground.
