## METERING CABLE

MODEL SKN6012B

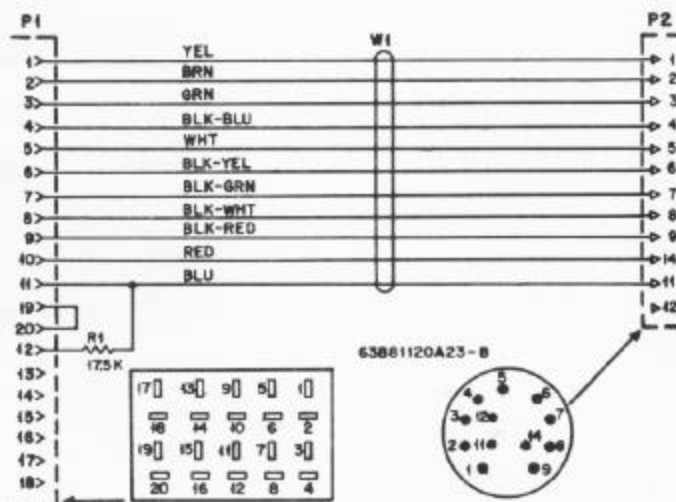

The Model SKN6012B Metering Cable consists of a cable with a twenty-pin female plug on one end and a twelve-pin male plug on the other. The cable is used with the Motorola portable test sets (S1056-9A) for metering "Motrac", "Motran" or "Dispatcher" radios. The twenty-pin plug is connected to the test set and the twelve-pin plug is connected to the transmitter or receiver of the radio set.
